Subject: Microsoft DOJ settlement

I would like to voice my support for the DOJ's settlement with Microsoft. I would like to state for the record that I am no nor never have been employed by Microsoft or any of its contractors, nor do I hold stock in the company or have any other vested financial interest. I have been in the technology industry as a consumer for the last 12 years, and I believe that Microsoft should not be hindered in their attempts to constantly improve and add new abilities to their products. If we begin to apply limitations on what Microsoft can add into their operating system, then we should place the same restrictions on all other operating system vendors.

Sincerely,
